Anaheim Amateur Radio Association Weekly Net Script

(Have announcements ready. Open the roster Excel file. Have a pen and piece of paper handy.)

(At 19:25 local time):

QST QST QST. This is _____. The AARA weekly net will begin on this repeater in about five minutes, and a clear frequency is appreciated. If any stations would like to check-in early, please call now.

(At 19:30 local time):

QST QST QST. This is _____. I will be net control for the Anaheim Amateur Radio Association weekly net which meets every Wednesday at 7:30 PM local time on the K6SYU repeater. This is an open net, and all licensed amateur radio operators are welcome to check-in and participate.

(Break)

This repeater is owned and operated by the Anaheim Amateur Radio Association, whose purpose is to continue the operation and support of the Association's repeaters.

At the Long Beach Veteran's Administration, the Association operates this two-meter repeater and a 220 repeater on 224.500 MHz.

At St. Jude's Hospital in Fullerton, the Association operates a two-meter repeater on 146.790 MHz, and a 220 repeater on 224.500 MHz.

Membership dues and donations fund the costs of operating these repeaters. If you want more information about the repeaters, are interested in joining the Association, making a donation, or would like to learn more about the club, please visit our website at AARA dot ORG.

(Break)

This is a directed net; all stations are asked to direct traffic through net control. I will call for check-ins from the roster, and stations should respond with their call-sign and location. I will then call for visitor check-ins. Following roll-call, I will ask for announcements and questions for the net. By checking in and giving your location, you help demonstrate the coverage of the repeater and verify the readiness of your station.

(Break)

I will now proceed with the roll-call. *(Call stations per the roster)*

Do we have any late or missed check-ins? *(Update roster as needed)*

Do we have any visitors to the net? *(If a new visitor checks-in, ask*: **Would you like to be added to the roster for future check-ins?** *(Update the roster as needed)*

For club announcements we have: *(Net operator will make club announcements here. Unless previous arrangements have been made for another club member to call in here and make announcements).*

Do we have any announcements for the net: *(If net operator has any non-club announcements, they can make those here after asking for announcements).*

Do we have any questions for the net? *(Answer or direct questions as needed)*

One last call for late or missed check-ins*. (Update the log as needed)*

I would like to thank everyone who participated in the net tonight. We hope to hear from you next week. Please join us in a few minutes for the AARA rag-chew net on the Fullerton 146.790 MHz repeater, negative offset with a 114.8 Hz PL tone.

This is _____ returning the repeater to normal amateur use. Have a good evening and seventy-three.

(Save the roster Excel file and e-mail to Gabe (KO6N) to upload to the website.)
