## *This Months Program*

### ***Pending Program***

Here is some interesting tech news from Time Magazine.

#### **AQUATIC ACCESS**

Researchers in Saudi Arabia developed a wireless data connection that works underwater using lasers. They have used “Aqua-Fi” to send data files and make Skype calls.

#### **DISTANT DIALING**

You might soon have cell phone service in outer space. NASA is tapping Nokia to build a 4G network on the moon.

Stay Safe,

Dennis
